VILLAGE ANALYSIS

CORRALES | NEW MEXICO

Corrales, the Spanish word for corrals, was home to the Tiguex Indians for centuries before Spanish explorers laid claim to the region around 1540. In 1710, a grant of the Alameda lands was given to Corporal Francisco Montes Vigil, A soldier in the Spanish army. The Alameda Land Grant, which included 106,274 acres, today provides clear title of ownership for all property within Corrales. In modern times, Corrales has become known as a haven for artists and other free spirits. The newcomers were active in creating a volunteer fire department, art galleries, and a municipal library. They eventually joined with longtime residents to incorporate as a village in 1971. Corrales experienced enormous residential growth following its incorporation, growing from a population of about 3,000 to an estimated population of almost 9,000 today. Though surrounded by suburban growth, Corrales residents continue to enjoy the rural character of the historic village.
