## ALBUQUERQUE | NEW MEXICO

Centrally located at the intersection of I-25 and I-40, Albuquerque is the most populous city in New Mexico with an estimated metropolitan population of 936,582. The city serves as a southwestern commercial hub, with BNSF Railroads rail service, air cargo shipped from the Albuquerque International Sunport, as well as the commuter train, the Rail Runner, spanning from Belen to Santa Fe.

Albuquerque's economic environment is experiencing growth due in part to the city being the center of the New Mexico Technology Corridor. Numerous high-tech, private companies as well as government institutions have recently expanded into the Rio Grande Valley. The largest employers located in Albuquerque include Kirtland Air Force Base, the University of New Mexico and Sandia National Laboratories. Recent economic news includes BlueHalo expanding its Albuquerque presence to four facilities. This commitment to the area is fueled by a new \$1.4B contract that will lead to more jobs and continued economic impact. Amazon is also expanding its presence in the area by adding another fulfillment center in Los Lunas. This is in addition to the new Albuquerque facility that was opened in 2021. The expansion expects to add another 1,000 jobs to the area.

Albuquerque temperatures are characteristic of high, arid areas. Midday temperatures average 50 degrees in the winter and 90 degrees in the summer. Warm summer days yield to cool nights. Despite an average annual rainfall of eight inches, the city has an adequate water supply located in an aquifer beneath the city that is supplemented by the Rio Grande. Water is a valuable resource in Central New Mexico and conservation efforts continue to ensure that the supply will be adequate for generations to come.
